

BRAZORIA COUNTY SHORELINE RESTORATION TASK FORCE

Client: Brazoria County, TX

Coastal Tech acted as an advisory technical consultant to the Brazoria County Shoreline Restoration Task Force.

In recognition of the regional nature of the erosion problem, local officials chose to join together to form the Shoreline Restoration Task Force, Brazoria County, Texas in September 2002. The initial Task Force members included all major political subdivisions with beachfront property or responsibility in the Planning Area:

- Brazoria County,
- Brazos River Harbor Navigation District,
- Village of Surfside Beach,
- Town of Quintana, and
- Treasure Island Municipal Utility District.

In January 2004, after annexing beachfront area, the City of Freeport also joined the Task Force. Coastal Tech was responsible for drafting the initial by-laws, goals, and projects objectives for the Task Force and continued to work with the group to implement selected projects.

Key Elements

- Public Outreach
- Public Input
- Project Goals & Objectives
- Drafting By-laws
- Erosion Response
